

2017-09-05

Mark,

I am writing in support of Carriage Hill Assisted Living's plan to pave the service drive on their property, which I understand is on this weeks Planning Board agenda.

The Fire Department had originally requested that this drive be paved as it is our primary access point to the sprinkler connection and the Fire Alarm panel. The planning Board had opted at that time of the original application period to not permit this to occur. Accessing these services via a gravel drive has always been a concern.

I would ask the board to please reconsider this to improve emergency access to the building.

If you have any questions pertaining this, please feel free to reach out to me.

Respectfully,

Tom Perley
