Ms. Sara Nadeau  
Administrator  
Carriage Hill Assisted Living  
306 Knox Marsh Road  
Madbury, NH 03823

Dear Ms. Nadeau:

On July 24, 2017, you contacted me about your plans to pave the rear and side portion of the facility where it is currently only a gravel base. Please note that we fully support this project for the following reasons:

- Paving around the entire facility provides McGregor with complete access to exterior doors and the ability to be closer to a patient.
- The current gravel portion presents access problems for us during periods of heavy rains, snow or ice storms.
- Residents can more easily navigate the grounds thus reducing the risks of falling and injuring themselves.
- In the event of a full-scale evacuation, residents can use any exit door in a safer manner than current conditions dictate. In addition, mobility-impaired residents can be wheeled out any door and brought to a safe area of refuge.

It is our hope that the Selectmen and/or Planning Board grants approval for this important improvement.

Sincerely,

Bill Cote  
Executive Director
