Good Morning Mark,

Mr. Diberto would like to move forward with the proposed subdivision of land, and remove the request of the commercial use. Is there anything needed for Wednesday's meeting? I am not available but Mr. Diberto will be in attendance. I believe we provided everything discussed at prior meetings to include the access agreement and easements.

The subdivision plan is within the entire plan set, so it should be separated of course in its final form. Would you require that for Wednesday's meeting or a potential condition of approval?

Christopher R. Berry
