

SCALE: 1" = 50 FEET

- CONSTRUCTION SEQUENCE:**
1. Review of NHDES Wetland Permit and Wetland Plan with Contractor and Wetland Scientist
 2. Layout Work Areas
 3. Layout and install Erosion Controls, as depicted on the plan
 4. Do not dispose of excavated material from NHDES Jurisdictional Areas
 5. Construct wetland crossing and associated rip-rap
 6. Stabilize roadway slopes along crossing within 7 days of construction
- RIP-RAP SPECS AND MAINTENANCE:**
1. Rip-rap will be constructed using 3 - 4" stones
 2. Rip-rap should be maintained in the fall and spring by removing debris such as leaves and sticks to allow proper infiltration
