### Official Business

December 4, 2019

Dear Abutter:

You are hereby notified that the Madbury Planning Board will consider an application for a wetland crossing Conditional Use Permit (CUP) for a property in which you have an abutter interest. If the application is accepted, a public hearing will immediately follow.

The application will be considered:

Wednesday, December 18, 2019 at 7:00 p.m.

Madbury Town Hall, 13 Town Hall Road, Madbury, NH

Normandeau Associates Environmental Consulting, representing Eversource Energy, presents this application for the Madbury Substation, Tax Map 8, Lot 20, Miles Road, Madbury NH.

The applicant proposes a temporary wetland crossing in support of utility maintenance at the Madbury Substation. Maintenance is required on manual switch J5280 on pole 5280/1, about 120 feet east of Madbury Station's fence. The pole is in wetland and will require matting for access by a Line truck. Access also overlaps with the 25 foot wet areas conservation district buffer and the 50 foot poorly drained soils buffer.

Please note that this maintenance is not part of the Seacoast Reliability Project.

If the application is found to be complete and to meet the standards of the regulations, it will be accepted for consideration and a public hearing on the matter will follow.

Documents relevant to this application can be viewed at the Town Hall or online at [www.madburynh.org/pb](http://www.madburynh.org/pb) under "Applications: "Eversource CUP 2019."

The Madbury Planning Board invites and welcomes your participation.

Sincerely
