Thank you Sandra.

I appreciate your input and will present your it to the the applicant (Eversource) and planning board tonight.

Please reference the attached link for more information: [http://www.madburynh.org/MadPlan/show\\_appdocs.php?id=71](http://www.madburynh.org/MadPlan/show_appdocs.php?id=71)

Thanks,  
Mark

Dear Mark and Planning Board;

I looked on the website as noted in your letter and found no further information regarding this wetland crossing. The hearing is tonight and I am not supposed to go to any public places. It is my understanding that the wetland crossing is across the road from the electric station adjacent to Madbury Rd. Extension and up the hill following the already existing electric lines. How long is temporary?

As long as Eversource is respectful of my property, doesn't cause undo damage or erosion, I understand the need for upkeep. Why don't they bury the lines instead?

Thanks for all you do.  
Sandra Straus /22 /24 Lee RD. Madbury ,NH 03823
