Re: Application for Conditional Use Permit
Eversource, L175 transmission line in Madbury

Dear Planning Board,

The Madbury Conservation Commission is pleased to comment on the Conditional Use Permit application by Eversource to replace nine delaminating wood poles along the L175 Transmission Line in the Town of Madbury.

The Commission met with the applicant on February 4, 2021, at our regular monthly meeting. After a presentation by the applicant, we inquired about invasive species controls and received a satisfactory answer. We understand the work will be done in accordance with the "Best Management Practices Manual for Utility Maintenance in and Adjacent to Wetlands and Waterbodies in New Hampshire."

The Madbury Conservation Commission has no objection to the Madbury Planning Board issuing a conditional use permit for this project.

Respectfully,

Eric Fiegenbaum
Madbury Conservation Commission, Chair
