We have discussed this, and I approve of the plan as discussed and drawn.

I'll attempt to write something up for you today.

Tom

Hi Chief,

This is a heads up for a review and approval request coming your way from Sarah Greenshields of Little Tree Education (cc'd above).

This evening, the Planning Board conditional approved an Amended Site Plan for Little Tree Education on route 108. One of our conditions of approval is for the applicant to provide written proof of Fire Department approval based on the changes proposed to the existing school.

The changes proposed included an enlarged deck, ADA access ramp, reconfiguration of internal spaces from offices to classroom space, and additional egress means.

The applicant indicated that she has discussed these changes with you; however, as usual, we would like your written approval.

Here's a link to the application documents.

http://www.madburynh.org/MadPlan/show_appdocs.php?id=83

I believe Sarah will also contact you on this soon.

Thanks,
Mark
