Good Morning Mark,

Our applicant has retained council to aid in the remainder of the planning process. We have not had a chance to have an internal team meeting to bring him up to speed on this project and therefore are not prepared to attend tomorrow nights meeting. We would like to continue the application for two weeks but may need a full thirty days. We will not know if we need the full 30 days until later next week so I would ask for a 2 week extension for now. Please let me know if you have any questions.
