To whom it May Concern,

I met with the selectman last Friday regarding a property purchase I am hoping to make in your town. The property is currently owned by Paul Martel and is an active sand pit. I run an excavation business and was hoping to continue using the property as it is being used now as well as a "home base" of my excavation activities. The changes that I foresee from the current use would be storage of additional trucks and equipment mostly during the slow construction months, possibly some more storage trailers and the outdoor storage of support items like traffic control devices, trench boxes and concrete barricades.

We are a smaller company and purchase materials from Paul currently, so the traffic increase would be related to smaller trucks and trailers out in the morning and back in the afternoon.

I am wondering what steps I would need to take in order to have this approved as Paul and I are under agreement and are hoping to continue to move forward.

Respectfully, Eric Brosseau
