Hi Mark - I don't see anything documented in the Historic Resources master plan chapter that is within the site radius of the tower, and nothing will be physically impacted by the project as it is in Durham. Therefore, I don't see any potential impacts to historic resources. I would suggest forwarding the proposed site plan to the BOS if you haven't done so already. You could add this to the next PB agenda and ask for any comments. If PB, BOS, public have no comments, I would simply reply to the email saying that the PB has no comments, or that the PB has no concerns. Thanks, Liz

Liz,

Any thoughts on this?

I infer it's an emergency services radio tower. Since Madbury shares emergency radio services with Durham (and maybe Barrington?) this tower may, in a sense, also be for our use.

Thanks,  
Mark

Good Morning,

Please find attached a copy of the "ITC Letter" for the EBI project site referenced in the subject line. EBI would like to inquire if you would be interested in commenting on this proposed project.

Should you have any further questions or require additional information, please do not hesitate to contact EBI at the e-mail address of telephone number provided in attached letter.

Thank you for your assistance in this matter,

**Sarah Boucher**
