The members reviewed the language of RSA 21:34-a as it relates to "agritourism".

The four Major Policy Issues in the Executive Summary section of the Master Plan were reviewed for the purpose of estimating the impact of adopting "agritourism" as defined by the state of NH. Each item was determined to have a net benefit.

Fritz Green offered a draft definition of "agritourism" as it might appear in Section III of the Zoning Ordinances.

Jack Mettee volunteered to produce draft language for "agritourism" as it might appear in the Madbury Zoning Ordinances and Site Plan Review Regulations including a section for conditional use permit.

The date for the next meeting was suggested as Oct 26th or Nov 1st depending on members calendars.

Respectively Submitted,

Fritz Green
