- Committee is requesting that it is printed on town letter head

Conversations with neighboring community

- Don't believe that entire committee needs to present for discussions
- When starting a discussion with other towns start broad and then starting to focus
 - Our initial focus is public works and trash/recycling program
 - Open to listening to other towns
 - If two or more towns are interested in a new topic, will modify direction
- Next steps will be determined based upon the response from the letter to neighboring towns
