LEWIS H. YOUNG,
JENNIE M. DEMERITT,
JOHN H. ROWE,

School Board.

Report of the Superintendent

February 10, 1921.

To the Board of Education :

I take pleasure in submitting to you the annual report of the superintendent of schools. The hearty response of teachers in particular and of interested citizens in general to the appeals for cooperation in organizing our schools for effective training in citizenship, which the State Board of Education defines to be "The central aim in school instruction" is here gratefully acknowledged. The activity of the recently organized Parent-Teachers Association has accomplished much in providing for open discussion and in promoting a better cooperation between parents and school officials. The presence of interested visitors in the class room is frequently an incentive to pupils to do better work, and it is also an assurance to the teacher that her hard work is appreciated.

Our work has suffered fewer interruptions than was the case last year. Those that have occurred were the results of necessity rather than of option. School officials generally are coming to realize that the best way to celebrate the birthday of a national hero is by emphasizing his virtues and achievements in regular and special exercises in the class room.

TEACHERS.

Between 300,000 and 400,000 children were deprived of schooling last year as a result of the shortage of teachers, according to estimate made by P. P. Claxton, Federal Commissioner of Public Education. No relief for the situation is seen by the Commissioner. From 110,000 to 150,000 new teachers will be needed next year, but there will be only 30,000 prepared to fill vacancies, leaving a deficit of 80,000. This may be supplied in part by making the profession so attractive that thousands of excellent teachers, who left their positions because they did not receive a living wage, may be induced to spend their talents again in the cause of education. How else can the bulwarks of society be strengthened to withstand the insistent attacks of bolshevism, ignorance and vice? The forethought of the joint committee of the Supervisory Union in providing clerical assistance made it possible for the Superintendent to spend the greater part of his time in actual supervision and in developing educational plans. The arrangement during the present year of providing a substitute teacher and a clerk for the Union has proved to be beneficial. While only two districts have needed her teaching service thus far, this teacher has been able to give valuable aid in the exacting work of child accounting collection of data, and tabulating standardized test scores. She has already taught 13 days in Madbury and is available in case of an emergency, to substitute in any school in the Union.

Our present corps of teachers is very satisfactory, being interested in the moral as well as the intellectual development of the pupils in their charge, and in community uplift generally. We have been fortunate to re-

tain the services of these conscientious assistants at the salaries offered, especially since each one has declined offers for more lucrative positions involving salary increases of thirty and eighty per cent.

Following is the teaching roster for the current year :

Name	Position	Training School	Graduation	Election
Frances D. Cogswell	North School	Posse Normal	1918	1919
*Marion E. Green	Centre School	Keene Normal		1920
Ethel M. Hurd	Centre School	Gordon Bible College		1920
Pauline E. Hurd	Substitute	Mattanawcook Acad.	1918	1920

*Withdrew Oct. 30, 1920.

In accordance with the generous vote of the District, the Center building has been repaired and remodeled to conform more nearly to the accepted standards of the school homes of our boys and girls. Owing to its construction being of brick the alteration of this building was a much more expensive and difficult problem than it would have been if it had been a frame structure. The particular task was to provide adequate light and heat as well as to remove the frontal and cross light menace. This has been done although the appropriation was insufficient to close up one front window and to provide hygienic desks. On the afternoon of Dec. 1, 1920, Deputy Commissioner M. S. Brooks inspected and approved this building as a standard school, excepting the seating arrangement. A community gathering in the town hall on Dec. 7 celebrated this approval with music and appropriate addresses by Mr. Brookes and your Superintendent.

It is to be hoped that the District will continue its plan for school house betterment by remedying many of the glaring deficits at the North School house.

NOON LUNCH

The health menace of cold dinners for the pupils who spend their noon hour in our schools has been alleviated at the Center School by the cooperation of teacher, pupils and parents. The lunches brought by the pupils from home are supplemented by a cup of hot cocoa, soup, chowder or some other easily digested substance. Thus is provided for each child warm, nourishing food which makes him a better pupil in the afternoon session ; and and in some instances aids in the overcoming of malnutrition.

HEALTH SUPERVISION

In accordance with the beneficent provision of the new educational law all pupils receive the services of a medical inspector whose diagnosis of physical defects at least, relieved thoughtful parents and guardians of the bliss of ignorance. If the part time service of a district nurse could be secured to follow up the cases needing attention, the district would be more nearly fulfilling its function as a guardian of child welfare. The high percentage of serious defects among our pupils indicates an alarming condition, and should prompt the district to do its full duty in helping these little men and women to prepare for life's battle without the handicap of remediable deficiencies. Following is a summary of inspection :

Examiner, A. E. Grant, M. D. (School year 1920.)

No. of pupils examined—42

No. of teachers examined—2

Number of cases found by examiner : Mal-nutrition
4. Defective vision 8. Defective hearing 4. Anaemia
4. Skin disease 1. Hypertrophical tonsils 22. Defect-
ive teeth 33. Adenoids 4. Defects of breathing 1. En-
larged glands 1. Unvaccinated without proper excuse 18.
Tonicitis 3.

Parents were notified of these defects, and the
Health Officer was informed concerning the cases coming
under his jurisdiction. Cooperation on the part of the
parents in the remedying of the indicated defects would
not only confer a lasting blessing upon the afflicted child,
but would also react to promote better attendance at
school and higher accomplishment in the class room.

SCHOOL CENSUS SEPTEMBER 30, 1920.

Whole number of children between 5 and 16 years of age.

Boys 40. Girls 26.

Number of Superintendent's visits	49
Number of days lost on account of bad weather, etc.	11

Roll of Perfect Attendance.

Melville Clark

The particular disgrace brought upon our schools last year was the lack of respect for the law of school attendance and the laxity of parental discipline manifested by those whose duty it was to place pupils in school at the beginning of the session. We do not need to concern ourselves over the Bolshevik alien in our large cities so much as we should the lack of respect for law and order in our own citizen-group. The average attendance of all the pupils in the State last year was 91.6 per cent. Think of the number of rural schools situated among the mountains and along wretched country roads, and then contrast the above figures with the record of Madbury schools, 86 per cent., remembering that nearly all pupils

have the advantage of good highways and many are conveyed in comfortable vehicles. The tardiness record is worse than the absence percentage for there may be a good reason for an absence but there usually is none for a tardiness. The State average per pupil tardiness was 00.3. Madbury's average is 2.04.

It is regrettable that our attendance record is so low.

The aid of parents is earnestly solicited to improve this record. There is usually no reason for pupils being tardy except poor control by the parent over the child. It is a parental duty to respect the State law which requires a pupil to be in an assigned school "All the time the school is in session." If a school session opens at 9.00 A. M. and a pupil is not present until 9.01 A. M., a law of the State and of parental discipline has been violated.

LAW OF SCHOOL ATTENDANCE.

SECT. 14. "Every person having the custody and control of a child between the ages of eight and fourteen years, or of a child under the age of sixteen years, unless such child shall have completed the course of study prescribed for the elementary school, residing in a school district in which a public school is annually taught, shall cause such child to attend the public school all the time such school is in session. Unless the child be excused by the school board of the district because his physical or mental condition is such to prevent his attendance at school approved by the school board for a number of weeks equal to that in which the public school was in session in the common English branches, or, having acquired these branches, in other more advanced studies. Any person who does not comply with the requirements of this chapter shall be fined ten dollars for the first offence and twenty dollars for every subsequent offence for the use of the district."

Provided, however, that any person having the custody and control of a child may apply to the state superintendent of public instruction

for relief whenever such person deems it to be against the moral or physical welfare of such child to attend the particular school required by law, and thereupon, after notice to the school board of the district in which such child is required to attend school, the state superintendent of public instruction may order such child to attend another school in the district, in which case the district in which such child resides shall pay to the district in which such child attends school tuition not to exceed the average cost per child of instruction for the regularly employed teachers and the cost of text books, supplies and apparatus for such school as such attendance shall continue, may permit such child to withdraw from school attendance for such time as he may deem necessary or proper, or make such other order or orders with respect to the attendance of such child at school as in his judgment the circumstances require, and provided further, that whenever it shall appear to the superintendent of schools, or if there is no superintendent, a majority of the members of the school board shall make recommendation to the state superintendent of public instruction who shall if the facts warrant it make an order exempting such child from attendance for such period of time as seems best for the interest of such child; and provided further, that upon the written request or the parent or guardian, any child doing approved work in school shall be excused for a part of the session on stated days for the purpose of receiving private instruction in music.

MEASUREMENTS

In line with recent investigation of a diagnostic character the work of the class room has been subjected to comparison with standardized scales or measures which give a more accurate criterion by which to pass upon the achievement of the pupil than would be obtained if the merit of the work were judged by the opinion of the teachers or the superintendent. The application of these scales is of great value in grouping more accurately those pupils whose achievements show that they should work together.

The Woody tests, series B, in Arithmetic and the Adams tests in Reading revealed the following achievements.

Grade	Achievement	Addition	Subtraction	Multiplication	Division	Reading	Speed	Comprehension
2	Mediam	8	4			Average	90.7	14
	Standard	4.5	3			Standard	95.	15
3	Mediam	7	6	5	5	Average		
	Standard	9	6	3.5	3	Standard	145	22
4	Mediam	12.5	8	10	7	Average	129	29
	Standard	11	8	7	5	Standard	165	30
5	Mediam	13.5	9.5	10.8	8.3	Average	164	
	Standard	14	10	11	7.	Standard	180	36
6	Mediam	16	15	14	13	Average	197	40
	Standard	16	12	15	10	Standard	200	40
7	Mediam	15	11	13	12	Average		
	Standard	18	13	17	13	Standard	220	45
8	Mediam	17	13	16	12.5	Average	240	
	Standard	18.5	14.5	18	14	Standard	250	50

It will be noted that the grades conform closely to standards in general, but the seventh and eighth grades were below standard in Arithmetic, and all were below in Reading. The diagnostic value of these and similar tests is readily seen and the deduction is that teachers should familiarize themselves with scientific methods of measuring achievements of classes in order to study the results with a view of correcting revealed deficiencies. As guardians of our schools, we should encourage our teachers, in every possible way, to take advantage of opportunities of reading and study, especially by summer school attendance.

PER PUPIL COST.

In view of the general conversation regarding the increase in cost of maintaining governmental functions, educational expenses should receive a close scrutiny, although the need and not the expense should be the first consideration in dealing with so fundamental a function as training future citizens. Alertness is necessary to avert the menace of ignorance which, unacquainted with the ideals, methods, programs or results of our educational system, seeks by misrepresentation of facts to discredit school officials and to deprive our boys and girls of the benefits of a modern education. While the cost of materials and labor in the business world has increased nearly or quite 100 per cent. in the last few years, it is interesting to learn from the State Commissioner of Education that, in spite of the rise in the rates for fuel, transportation and school supplies, the elementary school expense has increased only 21 per cent. The current expense per pupil average membership in the elementary day schools of the State last year was \$59.77. The corresponding cost for Madbury was \$51.97. Madbury is to be congratulated upon a wise and capable Board of Education whose members are administering their trust with fidelity and with efficiency.

CONCLUSION.

Your Superintendent is deeply appreciative of the sympathetic cooperation of interested parents and citizens, and of the courteous endorsement by your Board of the plans for the development of our school system.

Respectfully submitted,

JUSTIN O. WELLMAN,
Superintendent of Schools.

Births, Marriages and Deaths

Year Ending December 31, 1920.

BIRTHS.

- May 3. Ida Rossie, daughter of John Rossie and Rosa Aimar of Italy.
- Aug. 9. James A. Crockett, son of Dana Crockett of Caribou, Me., and Mabel A. Price of Red Rapids, N. B.
- Sept. 17. Charles W. Colprit, son of Ernest S. Colprit of Madbury, N. H., and Helen A. Woodman of Northwood, N. H.
- Oct. 22. Anna M. Hopey, daughter of Walter C. Hopey of Madbury, N. H., and Bessie Burdeen of Dover, N. H.

MARRIAGES.

- Feb. 20. Joseph A. Boyd, age 18 years, son of Joseph Boyd and Abbie E. Boyd of Madbury, N. H. and Catherine R. Lougee of Milton, N. H., age 18 years, daughter of William S. Lougee and Mabel R. Lougee of Milton, N. H.

- March 6. George Austin Brown, age 22 years, son of Thomas Frank Brown of Madbury, N. H., and Mary Susan Brown of Barrington, N. H., and Dorothy Blanch Mooney of Dover, N. H., age 18 years, daughter of Fred Mooney and Lillian Chase of Dover, N. H.
- Aug. 31. Frank J. Beemis, age 49 years, son of Osgood Beemis and Hattie L. Houlton of Marlboro, N. H., and Alice Irene Russell of Haverhill, Mass., age 31 years, daughter Walter L. Houghton of North Plymouth, Mass., and Nellie M. Tobey of Kittery Point, Me.

DEATHS.

- Mar. 12. Emeline A. Hoitt, age 86 years and 6 months. Widow of the late Hatyville Hoitt.
- Apr. 10. Walter E. Pratt, age 32 years, 11 months and 23 days. Son of George I. Pratt and Bessie A. Wilson.
- June 8. Ivory H. Kelley, age 82 years, 2 months and 22 days. Son of Captain William Kelley and Pemelia Demeritt.
