CARLETON M. WENTWORTH,
C. G. FELKER,
MERRILL S. HUNTLEY,

School Board.

Madbury, N. H., February 1, 1947.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Madbury:

It is my privilege to submit my first annual report as Superintendent of Schools. This report includes the table of comparative statistics, list of tuition pupils, and general comments on the administration of our schools.

The schools opened as scheduled on September 4, with an enrollment of 21 pupils at the North School and 17 at the Center School. This registration indicated little change over the previous year.

Minor repairs were made during the summer to put the buildings in proper condition. The only major repair was the shingling of one side of the roof at the North School. The heating unit at the Center School was adjusted to eliminate the coal gas fumes which were escaping.

New textbooks and workbooks including purchases for the United States History classes in grades VII and VIII in order that they would have the latest available information on the recent events in this country and our relationship abroad. This should prove helpful in making the adjustment to high school work on graduation. It was a pleasure to be informed by the Dover school authorities that our students from the Madbury schools have done and are doing well in their high school work. This is a credit to Mrs. Christine Taylor of the North School and Mrs. Mina Sanders of the Center School who are doing an excellent job in covering the program as well as adjusting the work to the need of individual pupils. I have no hesitation whatever in expressing my confidence in the quality of their instruction.

Several meetings of the teachers have been held in the Union for professional improvement. Among the

guest discussants were Dr. Howard Jones, President of Plymouth Teachers College and Miss Gertrude Lewis, Elementary Supervisor from the State Department of Education. In addition an all day institute was held in Stratham and our teachers attended a two day convention in Concord.

The school lunch program as conducted by Mrs. Sanders continues to be one of the finest of any small school in the state. It is unique in that it is entirely self supporting and free to all the pupils. It is hoped that through federal funds we can obtain cooking equipment at little or no cost to facilitate the preparation of the lunches.

Education in New Hampshire was given considerable impetus with the selection of Dr. Edgar Fuller as Commissioner of Education. He has reorganized the State Department of Education and is rapidly making new services available to our schools. However, his most far-reaching program is the recommendation to increase the support of public education to a greater degree at the state level. Statistics show that New Hampshire is among the lowest in the country in this respect. A bill is now before the Legislature to increase the aid to school districts. If the proposed program is adopted Madbury will benefit to the extent of some \$2700 rather than the \$649.67 received this year. This would go a long way in assisting in the improvement of our school program without increasing the costs to the property taxpayer.

The school budget has felt the rising costs as have every other phase of our economy. Scholars' supplies, textbooks, repairs, etc. are higher than they have been for 25 years. The cost of living has necessitated an increase in salaries for our teachers. The enrollment in teachers' colleges indicates that the supply will be low for years to come. We must recognize the fact that

teachers have been underpaid for many years and that we must pay a fair comparative wage in the future. I am convinced that most towns and cities realize the injustices of the past and plan to make adjustments. I hope the citizens of Madbury will support this recommendation.

Your superintendent attended the meeting of New England Superintendents in November and plans at this writing to attend the meeting of American School Administrators at Atlantic City March 1-6. He is a member of the Educational Council of the New Hampshire State Teachers Association and a member of the Legislative Committee of the New Hampshire Superintendents Association.

In a year of considerable sickness and bad weather it is a pleasure to congratulate Haven Hayes of the Center School for a year of perfect attendance and Roger Fernald of the North School for missing only one day of school.

I wish to express my appreciation to the School Board for their interest and cooperation in our work this year and to solicit the support of the citizens in working out harmoniously the problems we face in the year ahead.

Respectfully submitted,

AUSTIN J. McCAFFREY,

Superintendent of Schools.
