FIRE DEPARTMENT REPORT

To the Citizens of Madbury:

The unusually dry year resulted in several forest fires which were difficult to extinguish.

In the spring, three separate fires were set in the Johnson Creek and Jenkins Road areas at about 10 P. M. Dover and Durham Fire Departments assisted in controlling these fires.

In August, a fire on a peninsula, extending into the resevoir, from the west side, required several trips by boat to extinguish. All access roads were cut off by the water of the reservoir. Two trips were made with the help of the Dover Fire Department rescue boat.

In September a forest fire on Old Stage Road required many hours of work and many gallons of water to extinguish. Dover assisted with several tanks of water.

We gave assistance to Lee for a forest fire, and in December, we assisted Durham for a building fire at the Sieberlick Apartments.

Repairs to the International Truck; a new booster for the brakes, ring and pinion gears in rear end, and new tires, deferred the purchase of new equipment until 1966.

The Radio Alerting System is installed and working satisfactorily. More hose, and self contained breathing masks for the protection of our men at building fires.

In 1966 more men will be needed to enable us to continue, and improve our coverage, especially on week-ends and holidays.

Help reduce the Fire Hazard by:

Getting a permit, and burning late in the day.

Making your incinerator meet the safety standards of the Madbury Incinerator Ordinance. Obtain an Incinerator permit.
