ANNUAL REPORT OF MADBURY PLANNING BOARD

The Madbury Planning Board held quarterly meetings and met with the Selectmen and representatives of the State Highway Department on two occasions. No progress has been made in reference to improving road conditions at the DeMerritt Corner.

Donald Begley was reappointed to the Board for another term of office.

The Planning Board held the two necessary public hearings to amend the Zoning Ordinance at Town Meeting in March, 1969.

The lot size was amended for clarification purposes and the Zoning Ordinance was amended with a new Article concerning the removal of soil, loam, sand and gravel.

An up to date reprinting of the Zoning Ordinance was undertaken by the Board and copies were delivered to the residents of town early in the summer.

At the September 25th meeting representatives of the Iafolla Construction Company and Manager of the Madbury Sand and Gravel Company plant discussed their excavation program and the possibility of developing a residential-recreational area after their excavation is completed.

The Board reviewed plans for excavation submitted by C. I. White Enterprises, Inc. and gave their approval to the Board of Selectmen.

Mrs. Eileen Corrow, Mrs. Joann Schreiber and Mrs. Sylvia Grimes of the Survey Questionnaire Committee reported periodically their progress in compiling a Citizen's Survey questionnaire. The Survey form was approved by the Planning Board at their September meeting and the Committee was appointed to conduct the survey with the aid of the Madbury Community Club and other volunteer workers.

Mrs. Eileen Corrow, clerk of the committee issued a report to the board that the Questionnaire was presented to townspeople during the week beginning November 17-22, 1969. A meeting to acquaint volunteer workers with areas to which they had been assigned was held on November 5, 1969. Approximately 35 women distributed and collected

questionnaires over 20 areas into which the town had been divided — roughly by neighborhoods.

Number of questionnaires distributed (one per household)	218
Number returned	150
Number returned blank	5
Percentage of return	71%

A preliminary check indicated respondents would like to have the town remain rural residential, many actually stating they hoped the town would “remain the same.” Faithful volunteers have begun to tabulate the Survey Questionnaire.

The Survey Committee and members of the Planning Board wish to express their gratitude to the citizens of Madbury who have put so much time and effort into getting the Citizen’s Survey completed.

Respectfully submitted,

MADBURY FIRE DEPARTMENT

To the Citizens of Madbury:

The year 1969 was comparatively a quiet year. The department responded to eight alarms.

The usual housekeeping chores were carried out by the few loyal members.

Routine maintenance kept the department operational.

Improvements to our department consisted of an air whistle for an alarm at the station and a new Johnson mobile radio.

The hydrant purchased several years ago by the town has been installed at no expense to the town on the water main of the Elliott Rose Farms and will be in operation this spring.

As always our main problem is manpower. To date we have been able to respond to every alarm with enough men to work effectively.

This manpower problem will always be difficult with a community as sparsely settled as Madbury.

In fact without the excellent cooperation of the Elliott Rose Farm over the years, it would have been practically impossible to operate a fire department.

As we enter the 70's it might be in order to look over our department and give some thought to the future.

Our present department consists of a 1942 4x4 Chevrolet Army Vehicle and a 1956 International truck.

Our radios are about fifteen years old.

We have a Type Y Pacific Marine portable pump of World War II vintage.

Our McCollough pump is about twenty years old.

All this equipment is operational and can compete well with other departments beyond hydrant lines.

With forty new mobile homes already in town and the prospect of more residential building and some light industrial development, better equipment and more manpower will be needed.

New equipment will be needed to repay in kind our neighboring communities for mutual aid assistance.

Improvements to the department should be made at the recommendation of the Madbury Planning Board.
